COMMENT OF THE DAY

Cruelty?

HOW ought we to react to the In news that a monkey has been sent up 60,000 foot in a balloon, or that rabbits of varying ages have been inoculated with Strontium 90, or that "Wickle" the mouse and "Laika" the dog have been shot up in rockets and sateliltes hundreds of miles above the earth-all to ploneer the unknown?

Depending on whether or not we owned a dog and our attitude to mice, rabbits and monkeys, our answers would vary. None would of course approve the wanton destruction of animals and the question for most would possibly be resolved if It could be proved that the ends justified the means. Most, but by no means all. Every. where animals have their ad-

Margaret Atomic

Frederiction, Aug. 8. Princess Margaret will see two mock atomic explosions during army exercises at Camp Gagetown, New Brunswick, iomorrow, it was announced loday.

The Canadian Army, announcing a last-minute change in plans for the Princess' visit to the camp, said that at her request, infantry and armoured groups would stage a mock battle.

Princess Margaret was originally scheduled only to tour the military camp as part of Mother and child were described her visit to Canada.

Today, Princess was spending a quiet day at a summer cottage on the St. John river, about seven miles north of here.—Reuter.

Dirk Bogarde Loses Fight

-Schoolgirl Fans On His Doorstep

is Britain's top box office moneymaker, today learned that hundreds of schoolgiri fans would be

Amershan, Aug. 8. of Housing decided a new yard-long, 20-foot high de-star Dirk Bogarde, who £200,000 girls' school could fensive earth mound—it was be built in the park next to Bogarde's elegant country home here.

But it must be in the corner where it will be "least conspicuous," the Minister added. Bogarde told an inquiry earlier this year he had built a 200-

described as "Bogarde's Bastlon"-to screen his 18th century house from the school.

The County Council has promised a further "barrier" trees-and an unclimbable fence,-China Mall Special.

Stalemate Reached In Anglo-Greek Talks?

Athens, Aug. 8. British Prime Minister Harold Macmillan conferred twice today with Greek Premier Constantine Karamanlis in an effort to cut through the Gordian knot of Cyprus, three-year-old revolt.

without comment or even the Cypriot Turk policemen against placed on the traitor's list,-Participants left the conference usual greetings to reporters, going to Turkey and said that U.P.I. and France-Presse, This was interpreted as an in-

dication of stalemate. The statesmen are due to meet again temerrow merning. Meanwhile conflicting reports arose on the probability of Mac-

sidential envoy Robert Murphy. MAY POSTPONE

millan meeting with U.S. Pre-

It had been authoritatively reported that Macmillan would postpone his departure for Ankara and talks with Turkish Premier Adnan Menderes from tomorrow evenlog until Sunday. Murphy is due to arrive tomorrow aftennoon from Addls Ababa (Ethiopia), But a British embassy spokesman indicated that Mac nillan

might leave as originally sche TRAITORS

In Niscosia, the Cypriot Greek independence movement, Eolon, was believed to have launched a campaign to "clean up traitors" during the current truce, after the announcement today that another Cypriot Greek hed been shot dead. This is the fourth case since the truce was announced - last Monday.

Meanwhile the Turkish underground movement TMT that Cypriot Turk policemen were being sent to Turkey "for spying purposes".

Washington, Aug. 8. The White House disclosed today that the atompowered submarine Nautilus has completed man's first voyage under the North Pole.

It said the historic voyage beneath the ice from Pacific to Atlantic waters presages a new commercial route under the Pole for giant cargo submarines powered by splitting atoms. Disclosure

The White House disclosed the new feat of the world's first nuclear sub at a ceremony in which President Eisenhower awarded the Legion Of Merit to the Nautilus skipper, Cmdr. W. R. Anderson of Bakerville,

Anderson and 116 crewmen sailed aboard the Nautilus from Honolulu on July 23 on a sub 8,000 miles through three oceans to Europe.

man's long conquest of the seas, discovered an unsuspected deep light gusts. channel to the Arctic, and found undersea mountain ranges not previously known. Not once did the submarine's degenerated.

power plant, using primordial energy first tapped by the stars, falter or fail.

at 0.30 a.m. today: Discovery followed a "deep sea valley" 300 ing as the typhoon moved on The Nautilus found and to 1,200 feet deep into the Arctic Sea basin. Under the Pole It discovered that the water- was 13,410 feet deep, 1,027 feet deeper than supposed.

It also discovered ranges of mountains existing deep under the Arctic ice, From Hawaii to the Atlantic the Nautilus cruised at

smooth 20 knots. Disclosure of the feat came after a suspenseful three hours following a cryptic announcement by White House Secretary James C. Hagerty that President Eisenhower would participate in a newsworthy cerevery good story." Hagerly declined firmly to hint at the nature of the story.-U.P.I.

TYPHOON THREAT **PASSES**

Junks and sampans sallied forth from typhoon sheltors this morning following

the lowering of No. 3 local storm signal at 5.30 a.m. Clouds began clearing. The voyage destined to take the sea lost its sullen, leaden. appearance and winds which had risen to a peak of 62 knots It charted a new route in during the three-day storm,

dropped away to occasional The typhoon passed over the coast about 100 miles west-

south-west of Hongkong and The following statement was issued by the Royal Observatory

At 6,30 a.m. local storm signals were lowered this moresto the coast about 160 miles west-south-west of Hongkong and showed signs of weakening. This typhoon was first detected as a depression 150 miles to the south-east of the Colony on Tuesday.

It moved slowly westward on Wednesday and Thursday but yesterday assumed a more northerly track which took it to within about 110 miles of Hong-

80 KNOTS At this stage, winds-exceeding

80 knots were being reported near the centre. Wagian has been reporting strong winds for 70 hours with gusts to 54 knots, while winds at the observatory have been intermittently strong for 26 hours with a peck gust of 62

The total rainfall in Hongkong associated with the storm was over 11/2 inches. The No. 1 signal holsted at 10.30 p.m. on Tuesday and No. 3 followed from 9.45 a.m. on Wednesday to 5.30 a.m. today,-Reuter.

live gentle, uneventful lives, or tive and well-cast as the Ameri- Hoover and the Ritz.

Miss Bettyhill who resides in the is drooping around. private hotel and enjoys a little

Rick Jason, Hollywood star, playing a young American Jethro who conducts a penetrating investigation into the doctor's past, these columns last weekend times trickling with honey, are finds that Dr Dysert's private life is clouded with tragedy. He has married three times and cuch of his wives have met violent and sudden death. Now his pretty secretary, Lisa Gastonl as the lovely Kitly Mortlock, is mysteriously bedridden.

Jethro ploughs doggedly of sifting scraps of gosslp and information. He is particularly interested in details of the late Stella, formerly wife of the doctor. Stella is nicely played by Sandu Scott, a Michigan blonde rather like Kim Novak who is sure - to attract wolf whistles from the back stalls.

THERE are a number of I revivals showing or about to be shown in the Colony. Because of the Lourdes Centenary this year "The Song of Bernadette' starring Jennifer Jones ni her loveliest and best is due to commence at the Roxy and Broadway on Sunday sandwiched between "Prescription Murder" and "A Nice Little. Bank That

Should Be Robbed." "Chase a Crooked Shadow" has returned to the Lee and Astor in response to requests from many fans. This is one of the most exciting shadowy films of complex characters and tence situations recently seen. In fact, Anne Baxter's scream when confronted with a woman carrying a nightcap of warm milic to soothe her nerves echoed by half the audience

in the crowded theatre. "Living It Up" and "The Kid" additional revivals, wellworth a visit.

LIVIDENTLY Paris goes LI down in a big way with Hongkong cinema - goers. "Paris Holiday" is still whooping it up at the Metropole and Star; while "Paris by Night" continued to cast its Afga-colour allure at the Lee and Astor, until today when it was replaced "Chase a Crooked Shadow".

role is spendidly played by the inscrutable Marlene Dietrich, glamorous as ever, who in her damaging testimony destroys Vole's claim that he had been home at the time of the murder. Furthermore she states that Vole admitted killing Mrs French, the

victim played by Norma Varden. This flim is clearly made and well-directed by Billy Wilder and producer Arthur Hornblow. There is restraint and then a sudden unleashed and electrifying denouement, slick dialogue and torrents of eloquence. The cinema-goer may think knows most of the answers and then finds out that he had guessed wrong for once,

LARGE and enthusi-A astic preview audience attended the film of the World Cup soccer championships showing at the King's Princess, entitled "World Faotball Championships of 1958." This is a fine documentary film of 35 football games played in different parts of the world during the last season.

It is in marked contrast to the film on the 1958 Asian Games. The commentary by Kenneth Wolstenholme is precise, informative and clear. All the highlights of the matches are shown and old excitements are re-lived by sports fans having referee's eye view.

Sports experts commented during the showing upon production starring Marius wizardry of Didi, Vava, Pelo and Garrincha of the Bazilian team until the skilled performances Based upon Joan Fleming's left them breathless.

The film takes nearly two nours to run and before the final played between Brazil and Sweden last June, the viewer has the added attractions of a traveloguo highlighting Swedish beauty spots, beach resorts and architectural in the cities.

Surely one of the greatest of football tournaments, documentary was worked on by nearly 30 German cameramen of the Hans Schubert film company, under the direction of Sammy Dreschel. Full marks for editing of a high standard.

Instead of being clowed and deafened by jostling fans the speciators at ease in the theatre watched with avid interest the magnificent shooting power of the French star, Juste Fontaine; the ball control of Swedish wingers Skeglund and Kuri Harrin and the equally brilliant KING'S & PRINCESS: "Living play of the West German winger Helmut Rahn. An amusing sideline was the cameramen's study of crowd reaction. In one shot there would be the excited Mexican sipping with voluable asides, his tequila, then the calm Swede drinking coffee with

philosophic resignation. Humour and pathos are skilully contrasted and there is good entertalnment for all, even for the picture fan only slightly interested in football;

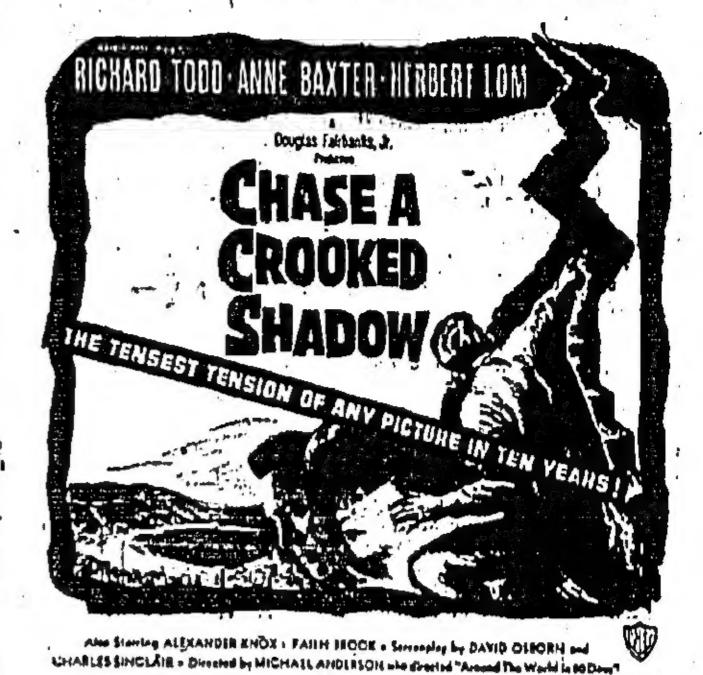

TON'T forget the British Legion Gala Premiere "Dunkirk" on Monday next at the Hoover Theatre bosomy and not over-bright: to be shown in the presence Dean Martin is his medical nor at 11.80 p.m. nor at 9.80 p.m.

> Owing to the rough sens around our coasts at the time of going to press, the film con-tainers have not yet been unload-ed, so there has been no time to preview the Metro-Goldwyn Mayer apic of the evacuation of troops at Dunkirk.

John Mills, Richard Attenaround the Liverpool streets the stars and in the capuble hunds of producer Michael Balcon, the resulting enterinin-ment is unre to be of high standard. Bookings

ANOTHER SHORT STORY BY A HONGKONG WRITER

AUTUMN IN PEKING

IT was one of those oppressive autumn days in Rac. Hongkong when the air clung to one like a hot towel and there was not even a whisper of a breeze to provide relief. Lin Han, returning from his errand, pushed open the door on which bold black characters said: "Wing Tai Hong. Imports and Exports." Inside, the familiar sight of his office opened was a battered teakwood counter behind which he said: "Tonight, when you see help her put them on the table.

Was at, and behind that were three desks, arkong baker whose bread was poisoned with amenic by some usually sat, and behind that were three desks, arranged as if to mark the three points of an separately packed." His tone down to cat, he did not feel

Moss was dressed for racing: thin pants, vest, trousers, and shoes with soles as fine un was far too hof to wear

He buckled his helmet, pulled on his gloves, and the Cooper proceeded to travel taster than any other ... except for Fangio's

These practice days are important. Almost as vital as the race. The inster time a driver can put up, the nearer he gets to the front of the starting grid.

In theory, the first day is for remembering once more the bends and the landmarks, for watching out for hazards, and branding in one's mind treacherous patches of grit and Through that afternoon the

In the Argentinian Grand Prix only the second practice day speeds count for sorting out the starting positions.

But on this first day two men were driving with a vervo worthy of the race itself.

First was Fangle, the local celebrity. The crowd had come to see a display, and it was Fanglo's happy job to show them one.

Second was Stirling Moss. With a granace he set off to do likewise. Not because he wanted to dozzie the Argentinians, but he was driving a strange car,

ACOBY ON BRIDGE

Story ...

By OSWALD JACOBY

[F West had opened a diamond L there would be no article. At some stage or other in the play East would obtain the lead and play the queen of clubs whereupon it would have been curtains for South.

Fortunately for South, West looked over his hand carefully and led a trump. Now South pulled frumps with a second trump lead and played the ace and jack of hearts from dummy. East played low and South discarded a club instead of ruffing.

Now West shifted to a dia-mond, but it was too late. South went right up with dummy's ace and led the ten of hearts. East ducked quickly; there was no

reason to cover and South simply discarded a second club. Now all he had to lose was one club and one diamond and the contract wheeled in.

South would have looked mighty foolish if West held the king-queen of heat s and East the ace of clubs. Also, if East held the ace of clubs the play would have made no difference; the hand would have been a cinch on any line of play.

But look what South had in his favour on his play. In the first place West would probably have led a heart if he held the king and queen; in the second place the odds are three to one against two out of two cards appearing in a specific hand.

One day, in the back room of a bookshop, Hozumi was introduced to an "American" named "Johnson." He had met Richard Sorge,

Do You Happen Left-Handed?

By a Special Correspondent

ARE you among the four to eight per cent of human beings who happen to be left-handed, or do you number any left-handed persons among your family or close friends?

If so, has it been your opinion that left-handedness carries disadvantages - other than the disadvantage that some parents and schoolteachers have done their best to 'correct' this phenomenon in the young, though nowadays such efforts to make children conform to the general pattern of relying mainly on the right hand are usually frowned upon?

It may not be generally realised that left-handedness right-handedness of the majorican sometimes be a distinct ty is merely an acquired habit, adventage. This is the case in due to most mothers accustomvarious sports, including boxing ing their children to cat with the and baseball, where a departure right hand. from the normal can confuse the opposition. It is also the place more reliance on one eye case in certain trades and crafts, where a left-handed estimated that some seventy person can more easily perform per cent of right-handed perspecific tasks that would prove sons are also right-eyed, and

individual. In the job, of riveling, for instance, a gang of workmen welcome the . presence in their midst of a left-hander who can deal with bolts located in positions that would require an almost acrobatic ability on the part of his fellows.

their right hands than on their left? This is a question on which innumerable researchers theorists have written countless thousands of words.

Some authorities have east development. their minds back to prehistoric times in endeavouring to seek explanation. There is a school of thought which considers that the habit of righthandedness had its origin in the carliest chys of single combat and primitive warfare, when men accustomed themselves to protecting the heart with the hand (or a shield held by that hand) and used the right hand to attack an enemy with hand to right. spoor or sword. Thus the left became associated the more or less passive role of defence and the right with the vigorous tactics of offence, and thus, according to the theorists, right hand developed a combiguing character which rendered it the principal operacupations as well as in battle.

Another opinion is that the

Incidentally, people tend to than on the other. It has been awkward for the right-handed handed individuals are correspondingly left-eyed.

T is not the habit of grateful Governments to erect statues to spies who serve them well and perish in the line of duty. If it were there would be one in the Red Square Moscow to commemorate Dr Richard Sorge, hanged in the Sugame Prison in Tokyo early on the morning of September 1944.

And on the base of the statue there would be a plaque bearing the name of his faithful assistant, Ozaki Hozumi, executed five minutes before his master. Together they were the centre of what was probably the most efficient, and the most successful, spy-ring of the

Sorge will rank as one of the greatest spies of all time. It is the ambition of all spies as a spy for the Soviet Union in secretary to Karl Marx. China and Japan from 1929 until 1941. Few spy-rings last

anything like as long as that, A fantical ideological Com-Nozi, munist posing as a loyal Sorge established himself as the intimate trusted adviser of the German Ambassador in Tokyo, Eugen Ott.

He is believed to have actually drafted for Ott the clauses of he East-West Axis agreement. He also got much information from Colonel Joseph Meisinger, head of the Gestapo espionage system in the Far East.

Adviser

worked himself into the position of unofficial adviser to the Japanese Cabinet, and later was in the inner circle of friends of Prince Konce, three times Prime Minister, with ac-

cess to the most secret docu-ments and telegrams.

How did Sorge and Hozumi get themselves into these post-tions of trust and build up an esplonage network consisting of nearly 40 men and women, some of whom were quite unaware they were spying for Russia? By a mixture of infinite patience, meticulous attention to detail, and a modicum of luck, which enabled Sorge to keep the Fourth Bureau of the Redi Army Intelligence fully informed on Japanese war plans, and preparations for nearly nine

That he succeeded so well in deep-rooted suspicion of all foreigners, and where were constantly on the look-out Communist activity and espionage, is quite astonishing. Richard Sorge was born in Baku, South Russia, in October, 1695. His father was German; his mother Russian.

His parents took him to Berlin, where he was educated and grew up an apparently loyal citizen of to get "on the inside"—and stay imperial Germany. But he did there. Richard Sorge stayed not forget that his paternal there for 12 years. He worked grandfather, Adolf, had been

wor in the German Army and was twice wounded. Later, took the degree of a Doctor of Political Science at Hamburg University. After working as a miner and schoolteacher he' became a journalist, joining the Hamburg branch of the Communist Party on its formation in 1919. He also perfected his knowledge of Russian.

Becoming an active Party member, he acted as an under-ground courier, and in 1924 was summoned to Moscow to become a special agent of the Communist International. After three years' training he

began his hazardous work as "field agent" in Germany and Scandinavla, His cover was that of correspondent for an obscure German magazine. In 1929 he returned to Moscow and applied for a transfer from the Comintern to the Red Army Intelligence. The transfer

granted, he went in January, 1930, to Shanghai, still using his same cover. He worked with astonishing speed, for a spy. Within a year, he had at least 20 agents, covering most of China, working for him.

In the years that Sorge was working his way up the ladder of plotting and espionage, Ozaki Hozumi, born in 1901, the second of a journalist, was cm-SOR the brancing Communism, after a Going to Shanghai in 1929, he groups. came into contact with the Chinese Communist Party.

he was introduced to an "Ameria" tall and powerfully built, with credence to the legend.

can" named "Johnson." He had Richard Sorge. In December, 1932, Sorge returned to Moscow for orders, she was a member of the Sorge

Told to go to Tokyo and organise a completely new spy-ring, he establish his cover-that of 1941, and "examined." She special correspondent in Japan named Miyagi, another member the "Bergen Kurler" and the in his turn uncovered Ozaki he applied for, and got without on October 14. question, a Nazi Party card. He landed in Yokohama on

September 6, 1933. It did not take him long to establish his spy-ring, complete with a radio transmitter, and make contact with Hozumi, now the fidant" of the Japanese Cabinet, Luck allied to judgment be-

gan to take a hand. At the Ger-Club, Sorge met assistant German, military attache, Colonel Eugen Ott. The spy's Nazl Party card and press pass were sufficient to give

him an entree to the German Ambassador, von Dirksen. Sorge's friendship with Ott ripened, and the attache began to show him secret documents.

Arrogant

At the same time Hozumi was passing him copies of the topsecret Japanese Cabinet papers. When war broke out in 1939 had become Ambassador. He appointed Sorge press ntiache on the Nazi payroll. Well informed by his fellow-spies, Sorge had much to tell master; in turn, Ott had much to

WEEK-END WOMANSENSE

Vanishing Tribe Clings To Old Luxury Order

WOUR BIRTHDAY By STELLA

SATURDAY, AUGUST 9

DORN today, you have tremendous enthusiasm for life. You are highly adaptable and are able to meet new and changing situadions with great facility. You have a good head for business and probably will accumulate something of a fortune during your lifetime. You make your plans carefully and then intend to earry them out to the letter. You will work hard to achieve your goal.

However, if things are slower to develop than you anticipate, you are much too apt to become impatient, then irritable, and often very difficult. In fact, so difficult that others will do anything to get you what you want so that you will again become your usual, amlable self. Although you, can adapt to external changes, you are not one to adapt to failure of your own ideas. You plan, by some method, to get what you originally intended.

You are perhaps a little too eager for material success. You tend to think that money can bring happiness. Actually, the stars have given you a good mind. You should learn to cultivate your interest in cultural and spiritual things a little more. You will find that one can be rich in gold and poor in spirit-a condition that can only bring discontent.

You have an ardent love of nature and will be happiest if you wed quite early. You will enjoy making your home the social centre of the neighbourhood. You are a line host or hostess and know how to make guests feel right at home immediately.

Among those born on this date are: Izaak Walton, author of "The Complete Angler"; John Dryden, poet, critic and dramatist; Sora Teasdale, poet, and Soloman Laurent Juneau, fur trader and founder of Milwaukee, Wis.

To find what the stars have in store for you tomorrow, select your birthday star and read the corresponding paragraph. Let your birthday star be your daily guide.

SUNDAY, AUGUST 10

PISCES (Feb. 20-Mar. 20)-

before you leap into anything

SUNDAY, AUGUST 10

PORN today, you have a strong will and are persistent. Once you D get an idea into your head, you are determined to follow it through to a successful conclusion. You are sincere and honest in all your dealings with others and you have a good head for business. It is likely that you will become quite wealthy during your lifetime. You have a keen intellect and a sharp mind, are a builder by nature and are always thinking constructively.

In addition, you have a love of the beautiful and probably the troubled Middle East. have artistic, musical or literary talent. You may not develop this nide of your nature until fairly late in life, and even then you may make it a secondary career. If not this, you may consider your art your hobby.

You have a deep spiritual and religious nature. Although you may not be a complete conformist and might contribute something startling or new to religious thinking, you will be highly respected for your views. Since you have an inquiring mind, you are niways investigating new ideas and new methods. But you will put them to the severe test of practicability before committing yourself on them. Only then will you make use of your magnetic personality to popularise them.

You are fond of social life where there is an exchange of ideas. You would like nothing better than to make your own home the center of the cultural life of the neighborhood. Wed someone who has similar cultural tastes and you can find exceptional happiness and conteniment,

Among those born on this date were: Herbert Clark Hoover U.S. President; Joseph Pulitzer, editor and newspaper ewner; Jay Cooke, financier, and Edmund Randolph, the Virginia statesman who defended Agron Burr.

To find what the stars have in store for you tomorrow, select your birthday star and read the corresponding paragraph. Let your birthday star be your daily guide.

A Music Lover Behind The Panel IRENE TUEN

Irene Yuen was born in Hongkong, educated at the French Convent Girls' School and Hongkong University where she got a B.A. In Economics. After graduation she returned to her first love, music, and before long came to be heard regularly in piano recitals over Radio Hongkong.

In 1954 she went to America for three years to the Peabody Conservatory of Music at Baltimore. She studied under the eminent Palish concert planist Miccyyslav Munz, the American composers Louis Chestock, Henry Cowell and Nicholas Slonimsky.

Irene Yuen joined Radio Hongkong in October 1957, to take charge of the presentation and produc-tion of serious music. Her recent productions included "Talking About Music" and "The Music of Friends."

Programmes for which Irene Yuen is responsible include "Monday Recital," "The Sunday Concert," "Music of Our Times," "The Virtuoso Composes," "Saturday Prom," and, perhaps the most popular.... "Music Lovers' Hour" and "Classical Requests."

TIPSO Jump was a grey mouse who lived in the barn. He was a livelý fellow, a good thinker, and a VERY good story teller. He used to sit up on the grain bin and tell stories to almost, anyone, but especially to his friend, Cluckabiddy Hen. LOVED stories.

But, one morning when Japan came out to get his breakfast he stopped in surprise and goggled las eyes in annoyance.

"Now, how do you like THAT!" he said, "The farmer has a new feed bin, and it's made of METAL, and it has a LID! How am I going to get bin thinking when Chickabiddy Jipso nibbled the end of one breakfast?"

came along.

"I'm' not in the mood for stories," squenked Jipso, hungry because of this new bin. "I'll have no time for story telling," snorted Jipso. "I'll be too busy hunting for food." Cinckabiddy sgunwked.

Cluekabiddy's yellow beak, Then she raised her head idea!" with a jerk and said, "I know! You can eat from the chicken

feeder with me!"

whisher in a thoughtful way as

"Hi, Jipso!" said Cluckabiddy, he looked at her, then suddenly "How about a giory this a bright gleam came into his

> "Cluckabiddy," he said_noftly, "I'll make a bargain with you. I'll tell you a story every day if you'll help mo get to the chicken feeder. I'm sure that it you squatted down a little and walked to the feeder I could walk right under you and nohedy would notice me at all."

Cluckabiddy's red comb quivered. "OF COURSE, Jipsol" she edded. "That's a wonderful

So every day when Cluckablddy went to the feeder Jipso went with her. And every day "That WOULD be the end Jipso Jump thought up a good me!" Jipso answered, "I'd be story to tell Cluckablddy, and right out in plain sight of the they both were well-fed and

Rae Recalls Some Of His Big Highlights

200N after riding in having changed, I was talking to the Queen's racing manager, Cap-Charles Moore. "Will you be over here on Monday?" he asked.

"No, sir," I replied, "I shall be riding in Paris." For I had rides booked at St Cloud for that day. We talked on for a while before I went back into the weighing-room, where it suddenly occurred to me-maybe Capiain Moore had been going to ask me to ride for the Queen. I doubt whether I have ever moved so quickly without the aid of a horse.

I dashed out, nearly ran down the Queen's racing manager, and told him: "I can easily be here on Monday, sir," So he bent down from a long way and said: "Good, then will you ride Teneretta for the Queen at Hurst Park?" What a question!

I spent Saturday at St Cloud and Sunday, at Longehump expressing my regrets at being 1949 are told by a man unable to attend St Cloud on the Monday, and returned for my first and only ride in the the drama:royal colours.

The Queen was not racing THE year 1949 was the was as apprehensive as an apprentic Leon Volterra should going out for his first ride as I walked to the paddock-pausing have lived to hear that for a photographer who recorded his white and cerise silks Rae Johnstone looking all of 90 years old—to be presented by had been carried by an Captain Moore.

SATURDAY SPORTS SPOT

Why Not Miniature Hockey In The Hot Summer Months?

most interesting suggestion has been put to me by a member of one of our local clubs. The person concerned recently saw a film of the finals of the Land Forces sixa-side hockey competition and felt that it was a stimulating game which should find plenty of support outside of Services circles.

The Colony already has a thriving miniature soccer organisation and small-ball football enjoys tremendous support during the summer months when the 'big' ball is being rested. Is there any real reason why miniature hockey should not achieve the same popularity?

The Services—and the Army particular — derive great enjoyment from playing their mini-game and, as the rules are kept to the minimum, it is easy to catch on to the tricks and trimmings of the art.

For those of you who may never have seen this heetic game let me assure you it is as invigorating to play as it is entertaining to watch and I am sure that once they got involved the various elvilian clubs would quickly embrace it as a winner. in the Army, is usually staged get a chance to wag a stick in on a confined concrete 'pitch' which is often a tennis court or fit out of season. basketball court when the hockey enthusiasts have moved

Honeymoon Turns To Murder

Bude, Cornwall, Aug. 8. Mrs Daphne Oldfield, 35, said here today her husband pushed her over a cliff during their honeymoon, then battered her with a stone when he found her still alive on the beach.

John Sanders Ulatieid, 33, was sent for trial charged with attempted murder.

The prosecution said it was a "miracle" the wife survived, after falling 117 feet.

Mrs. Oldfield said they were walking along the cliff top together, when she told her husband she would like to go to a dance the following night. "The next thing I knew I had been pushed over." When she called for help, her husband came, beat her over the head with a stone, and tried to

choke her, saying: "I am going to kill you," she alleged. The prosecution told the magistrates: ""You may wonder whether there is something about the

accused that will have to be inquired into at some other place." Oldfield said several times in a statement that his wife was a "rotten woman," but would not explain

what he meant, police stated, Mrs Oldfield agreed with Mr F. E. Beezley, prosecuting that during the honeymoon three attempts were made to consummate the marriage, but they were

"not entirely successful." She said her husband did not appear to be blaming her for the failure. Asked if she blamed him, Mrs. Oldfield replied: "No. I agreed there was plenty .of time."-China Mail Special.

N.Z. Regiment Smash Top Communist Conference

Kuala Lumpur, Aug. 8. A patrol of the First Buttalion, the New Zealand Regiment, broke up a top Communist conference in Perak State in June, Mr Frank Sullivan, Press Secretary to the Prime Minister, Tunku Abdul Rahman, said today.

Mr Sullivan was speaking on tion, the biggest party unit left a coded document found on in the field, and one was from the body of a terrorist killed the party's central committee, during the New Zealand raid. According to the government the document outlined plans for Communists to support opposition parties in an effort to topple the government at the next General Elections. Its veracity has been questioned by opposition parties.
